Homeless Management Information System (HMIS) Report	114

Executive Summary

2-1-1 Brevard connects people to services by providing information, referral, crisis intervention and training. The agency fulfills this mission through the following programs and services:

The **2-1-1 Helpline**, a telephone-based service that provides crisis intervention, information about and referral to community services twenty-four hours a day.

The **2-1-1 Online Database** is a searchable compilation of information about community services and volunteer opportunities.

The **Directory of Community Services** is a printed version of the information contained in the 2-1-1 database.

The **Sunshine Service** provides a regular telephone call to elderly or disabled people who live alone, are physically or socially isolated or otherwise would benefit from a routine reassurance call.

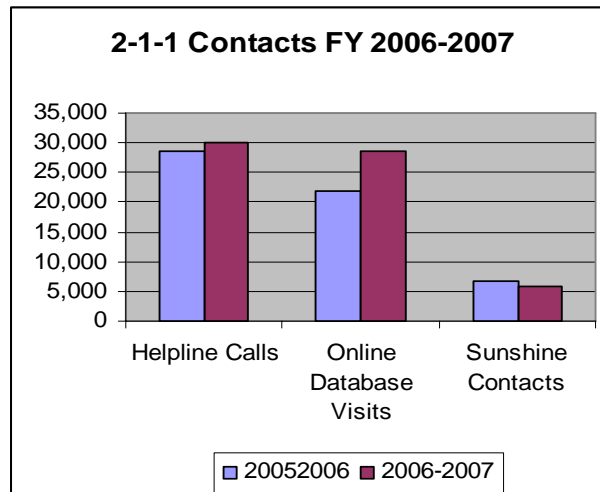

2-1-1 Brevard is the lead agency for the county's **Homeless Management Information System (HMIS)**, a web-based client and case management system used by local organizations that provide services for homeless individuals and families.

This report provides service data for the programs and services described above, although the majority of data presented are based on calls to the 2-1-1 Helpline and visits to the 2-1-1 Online database.

The following summarizes the contacts managed by 2-1-1 Brevard between July 1, 2006 and June 30, 2007:

<u>Contact Type</u>	<u># of Contacts</u>	<u>% of Total</u>
Helpline Calls	30,102	46%
Online Database Visits	28,515	44%
Sunshine Contacts	5,858	9%
Directories Sold	1,000	2%
Total Contacts	65,475	100%

The actual number of calls answered by 2-1-1 specialists is from 25% - 30% higher than the contacts logged, and includes wrong numbers, inappropriate calls, administrative calls, etc.

The number of calls listed above includes calls routed to the 2-1-1 Helpline by the National Suicide Prevention Lifeline, the Rape, Abuse & Incest National Network (RAINN) and after-hours calls handled for the Volusia/Flagler Counties United Way 2-1-1.

As you review the report, keep the following in mind:

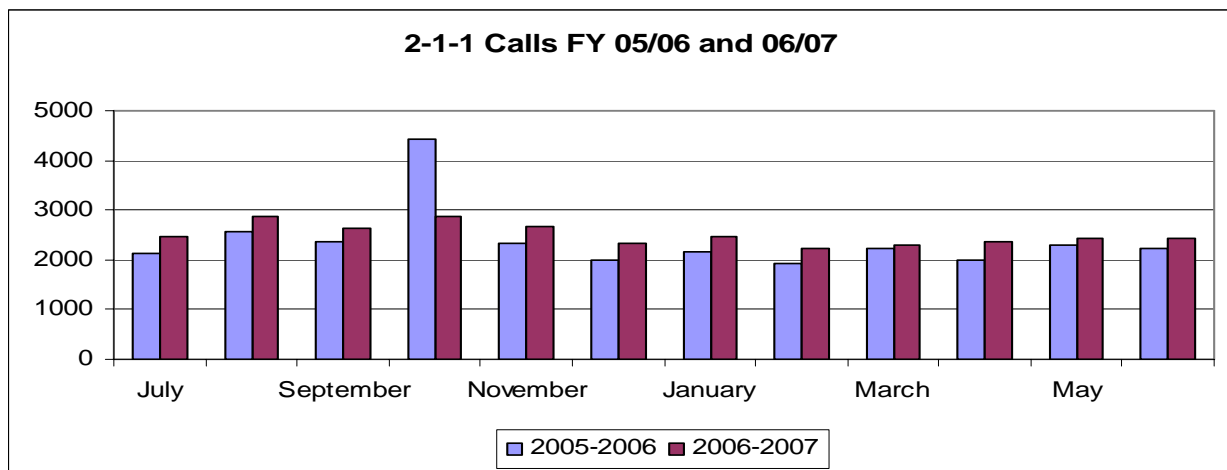

- Helpline data presented are based on call records. One record may include multiple incoming/outgoing calls and/or multiple problems/needs and referrals. Therefore, the total numbers of each of these categories will vary.
- The majority of 2-1-1 callers prefer to remain anonymous. Consequently, the category “unknown” will frequently represent a significant percentage in many categories.
- *Contact Type* refers to the way in which 2-1-1 Specialists assisted callers; *Problem/Need refers* to the issues for which the callers were seeking assistance.
- There are two versions of the *Referral Report* and the *Online Program Page Views Report*, as each is arranged both alphabetically for ease in locating a specific program, and in descending numerical order. Program names may or may not include the name of the operating agency. If you have questions about referrals to a particular program, please contact us.

Thanks are due to the agencies that provide funding in support of these services, including

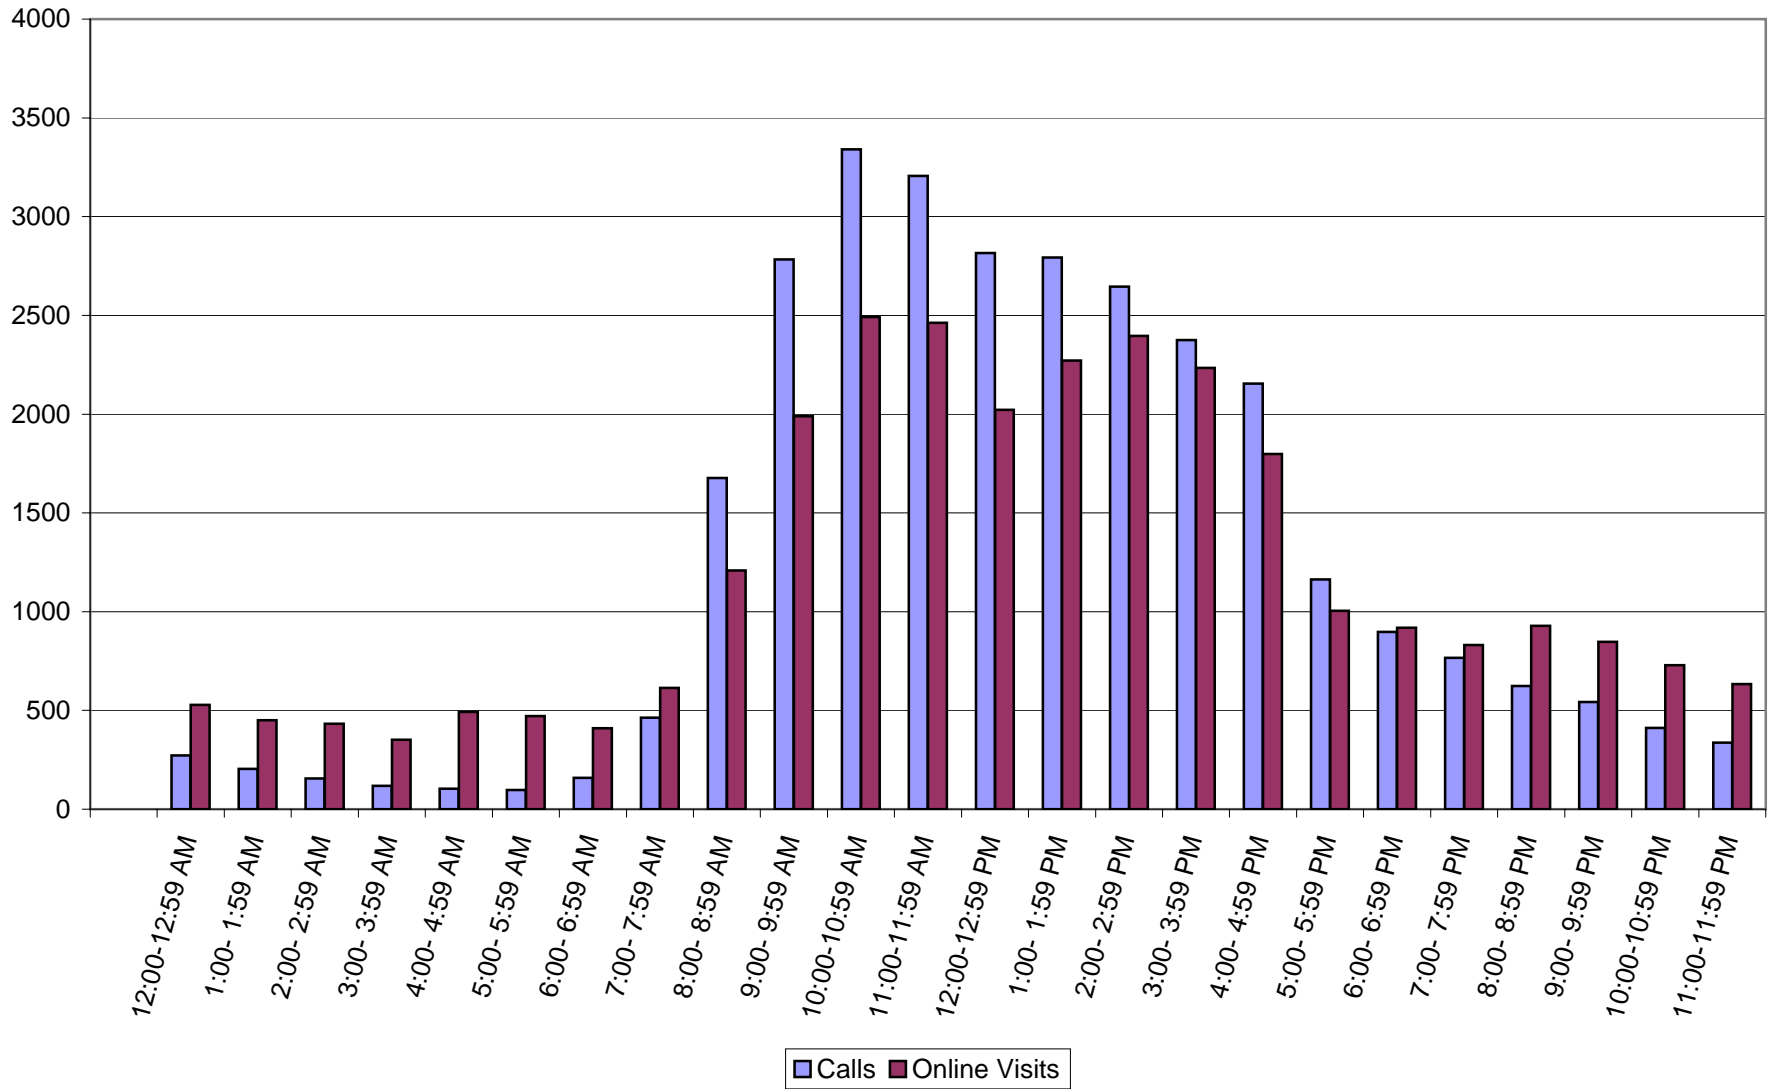

- United Way of Brevard County
- Florida Department of Children & Families, Substance Abuse & Mental Health Program Office
- Brevard County Board of County Commissioners
- United States Department of Housing & Urban Development
- Brevard County Health Department
- City of Melbourne

Finally, thank you to the more than 500 organizations offering nearly 1,600 programs and services listed in the 2-1-1 database. These governmental, private, faith and business organizations provide critical services to individuals and families in Brevard County every day.

This report can be downloaded from www.211brevard.org. If you have any questions or comments about the report data, please contact Libby Donoghue at 321.631.9290 xt 202 or via email at ldonoghue@211brevard.org.

Definitions:

Contact Type refers to the type of assistance provided to the caller:

Information & Referral: Detailed response to an expressed need for community service which typically involves a needs assessment and evaluation of appropriate resources

Crisis Intervention: Use of active listening skills to respond to the emotional state of the caller

Information Only: Limited response to a request for non-complex information; e.g., a telephone number to an agency already known to the caller

Long Term Recovery: Services for those with long-term needs resulting from hurricanes or other severe weather incidents

Linkage: An information & referral call in which the caller is linked by telephone to the needed service.

Advocacy: Additional assistance for callers who may lack the capacity to navigate the health/service system independently

Emergency Response, when law enforcement, fire/rescue, ambulance or the Abuse Hotline is contacted on behalf of the caller
